CIA IMAGERY ANALYSIS DIVISION

STATUS OF MILITARY FORCES NEAR THE SINO-SOVIET BORDER

A search of all portions of the Sino-Soviet/Sino-Mongolian Border covered on [REDACTED] was accomplished in accordance with prescribed procedure of analysing each new mission in an attempt to determine possible changes in the type or level of military activity within 150 nm of the Sino-Soviet/Sino-Mongolian Border (significant items within 300 nm may also be included).

Figure 1 graphically illustrates the portions of the border areas that were covered by photography (cloud cover and other limitations of photographic quality are not depicted).

The following items of interest were noted on [REDACTED]

WAC 202

POSSIBLE RIVER CROSSING EXERCISE AREA,
ULAN-ODON AREA, USSR

50 46N-115 40E

A possible river crossing exercise area is located approximately three nautical miles SSE of Ulan-Odon on the Onon River. The area appears to have a medium level of activity. This area is within 25 nm of several important military installations and access to this area for training purposes by units from these installations is relatively convenient. A SAM site is located immediately north of this area.

BEZRECHNAYA ARMY BARRACKS, USSR AND
SHERLOVAYA GORA ARMY BARRACKS, USSR

50 43N-116 10E
50 31N-116 23E

Activity at these installations appears to be at a medium level. All previously reported training areas are active and no significant changes to the buildings and grounds are noted at either installation.
